BURKENTINE BUILDERS ANNOUNCES PLANS FOR TERRACES AT MAPLEWOOD

HANOVER, PA (January 5th, 2022) — Burkentine (*Burk-en-teen*) Builders will break ground this month on the Terraces at Maplewood, their new \$64 million luxury rental community with grand amenities including a club house, outdoor pool, wellness center, walking/biking trail and even an Amazon hub. Maplewood offers garden apartments and 2-story or 3-story townhomes with spacious 1–3-bedroom floorplans all featuring kitchens with stainless-steel appliances and granite countertops. The location on Elmwood Drive in Harrisburg, PA allows residents to enjoy suburban living only 6 miles from downtown Harrisburg and minutes from I-81 and I-83.

“It’s exciting that Burkentine Builders is coming to Susquehanna Township. The Terraces at Maplewood will feature not only quality housing, but also ample opportunities for recreation. I’m excited to have Burkentine as a community partner,” says Rep. Sue Helm (R-Dauphin/Lebanon).

Additionally, this residential community is opportunely located within walking distance to [Susquehanna Union Green](#), which

just opened their first Phase to the public this December. “In partnership with Susquehanna Township and the local community, we designed Susquehanna Union Green to serve as a town center. The goal was to connect the site to surrounding neighborhoods, such as the Terraces at Maplewood, to make access to the site’s shopping and dining convenient and to encourage use of the public parks and greenspaces. We are excited to see the additional development activity by Burkentine Builders and look forward to welcoming their residents to our site.” commented Nicole L. Conway, Exec. Vice President & General Counsel at the Vartan Group, Inc. “When the Maplewood site became available, we immediately realized the benefit its proximity to Union Green would bring to our residents,” explains Michael Burkentine, VP, Sales & Business Development.

A Groundbreaking ceremony will be held on January 26th, 2022 at 1 pm. Phase 1 of the project has an estimated completion date of August 2022.
